FOREWORD

In this age of atomic energy, Sputniks, it is gratifying to find that the number of coin collectors is increasing daily. Those who collect foreign and ancient coins are in a special class. Their collection requires much more study than those collecting the United States series. In spite of business recessions, prices are rising in the ancient and foreign series and coins are becoming scarcer. It is therefore a great treat to find such a large and varied collection gathered in this catalogue. Thanks to George Lee, Jr., a Dutch ancient collector and others we have a most unusual group of coins in all series. This is the time to buy in our sales because more and more French coins go to France, all English to England, all ancients to Italy and Switzerland, all South African, to South Africa, etc. In every sale it becomes more difficult for a collector to obtain pieces for their normal values, for which our sales have been famous. Send your bids generously. We do not buy for any figure higher than 10% over the former bidder.

This is an unrestricted sale, unless we mention restrictions (such as lots 304-435)

We sell **ALL** coins to the highest bidder, even if the price obtained is below the market value.

There never are any coins available after our sales. We sell everything and **YOU** are the buyer.

Read our conditions of sale.

Returns cannot be accepted unless we have made an error in description.

949 **FORMOSA.** Tyal Head Hunter Tribe.NOTE: **Quoted description from Japanese writer:-** "Tyal tribe is in the north-eastern mountainous part. The Tyal is a fierce head-hunting tribe which was subjugated by the Japanese army about 1900 A.D. Most of these jackets seem to have been brought back to Japan while Japan ruled Formosa for about 50 years. They are now very rare, hardly available at any curio stores. Generally owned by some ethnologists. It has about 2,600 strings of beads, each string having about 20 to 23 beads. The total number of beads would amount to about 36,000. These beads were all hand-made by a native who polished into round shape on whet (as copied) stone putting the small fragments of holed shells on a tense bow string. The cloth material on which these enormous number of beads are sewn is also native's home spun, dyed in beautiful scarlet striped in white lines. One jacket is an enormous accumulation of labor by which fine cattle and several wives can be bought.

I know of a very smart coin dealer on the Ginza (the Fifth Avenue of Tokyo) who made a big profit by splitting this kind of jacket into many hundreds of fragments and selling each piece at several dollars! I am quite sure the whole jacket is a very nice ethnological and numismatic specimen hard to get. We find sometimes a square cloth fragment with similar bead-strings. The technical name of the jacket is **SHU I SHU-KUN** (JEWELED SCARLET ROBE).

It is difficult to express a value but as this is worth many wives, you can judge the price yourselves".

If broken, the "soul" escapes, and the coin is no longer current, until re–incarnated by the Medicine Man of the tribe (for a fee, of course). Interesting. "Reincarnated" specimens have been offered for sale, and are noticeable by a slight irregularity at the point where the coin was broken.

PROVINCE OF THE LIBERIAN HINTERLAND, which comprises the area inhabited by the Gbandia, Mendi, Gissies, Kpelles, Lorma and Gola peoples. Sixty pieces of iron valued in 1933–1936 in this Province, are about 24 cents to 36 cents according to the fluctuation of the exchange market up there, that is, tax–paying time and the intervening period. During tax–paying time silver money was quickly, and cheaply, exchanged for silver with which to pay taxes. After taxes were paid, iron money became dearer, or its value increased, when forty pieces of iron would be equivalent to 24 cents. Iron money was, and is still in a lesser degree used as a medium of exchange for any commodities or service within that area; even marriage dowries for the native were, and are, paid in this money, and a man who had acquired a lot of this money, had by virtue of its bulk a separate hut in which to store it. It also possesses the intrinsic value of being easily converted to cutlasses, hoes, and other farming implements. **THIS COIN. Small thin. 12".**

Value is greater, the bigger the stone and the hole is to carry stones on a pole over your shoulder or to put in front of the house. The piece we offer for sale would buy fish, pigs and other foods for a large family for quite a while. A romantic story is given in Willard Price's book about his stay on Yap. 1936, A South Sea Adventure, This piece given by chief ROUPON to Mr. KUROSAWA, a Japanese designing painter who served the chief 30 years ago.

OTHER AMERICAN COLONIAL

SPANISH MILLED DOLLARS

"(el cordoncillo)"

Bust & Pillars : 1772–1825

(PATTERN OF U.S.A.)

Reference is made to the Schulman catalogue of June 1957, pages 38–39; of the auction held at the Waldorf:

It is no mere coincidence that the weights (silver) of 416 & 208 grains of the 8 & 4 reales coins of the Spanish American colonies were the precise choice of the Congress of U.S.A. in 1792, upon establishment of its own mint. Recognition of this close association is taking effect. It is possible even to trace the pattern right down to the twentieth century in some parts of the world.

Meanwhile it is noteworthy that these early weights of traditional money were produced solely for circulation. Different principles guided their issue, hence the condition may not hope to rival later day "proofs", except in rarity and interest.

In fact the irregularities of mint damage actually assist in the identification of the pedigree of historical material, adding fascination to the study of the evolution of the American Dollar.

The following items some of which came from the Guttag, Wayte Raymond and other famous collections will quickly verify such advantage. Anyone now interested will do well to take advantage of the relative scarcity of the half dollar denominations (4 real) while available.

Ae we hope to make this series a regular feature of our catalogues please consult us for a market, in any quantity.

LEGAL TENDER NOTES

1517 $1. 1874. Allison–Spinner. Small red seal with rays. George Washington on obverse. Friedberg 19 ($100) Superb. UNC. (These notes have brought above catalogue).

1518 Another just as perfect.

RAREST UNCUT SHEET

Legal Tender Note

1519 1928 $1 Friedberg 1384. Uncut sheet of 12 notes. Very low serial numbers, which makes it to be the 10th sheet printed. A 00000 102 – 00000 120 A. Woods and Woodin. Small red seal and red serial numbers. Crisp. UNC. and just as perpect as issued.

The first uncut sheet was cut up and the single notes given to a government official. I believe this is one of four uncut sheets known.

At the ANA convention in Chicago, Mr. Kelly in lot 1102 valued his 8th uncut sheet for 1250 dollars and it sold for $700.00. An autographed sheet (the Wade specimen) was priced 1950 dollars many years ago.

Based on this information our 12th sheet is worth $1000 and should bring at least $600.

RARE FRENCH ECUS COUNTERSTAMPED BY THE

CANTONS OF BERNE & VAUD

At the beginning of the nineteenth century a large number of French ecus of Louis XV, Louis XVI, and of the Revolutionary period were circulating in Switzerland. In order to overcome the difficulties in business transactions caused by the varying weights of these ecus, the Canton of Berne in July 1816 declared all those which weighed at least 545 grains to be worth 40 batz. New edges were struck on these pieces, which were also counterstamped with this value and with the arms of Berne.

In March of 1830 the Canton of Vaud somewhat similarly counterstamped, and struck new edges on a number of French ecus, setting their value at 39 batz.

Due to the fact that many of these counterstamped ecus were later melted down, the 40 batz pieces have become very scarce and the 39 batz pieces are now of extreme rarity. The following six lots, on all of which the counterstamps and edges are perfect, provide an unusual opportunity to acquire these rare pieces.

2972 Louis XV, ecu, 1765–L (Bayonne), counterstamped 40 BZ, etc., rare.

2973 Louis XV, as King of Navarre and Duke of Bearn, ecu, 1767–cow mintmark (Pau), counterstamped 40 BZ, etc., rare.

2974 Louis XVI, royal ecu, 1791–A (Paris), counterstamped 40 BZ, etc., rare.

2975 Louis XVI, constitutional ecu, 1792–A (Paris), counterstamped 40 BZ, etc., rare.

2976 Louis XV, as King of Navarre and Duke of Bearn, ecu, 1761–L, (Bayonne), counterstamped **39 BZ** etc., extremely rare.

2977 Louis XVI, ecu as King of Navarre and Duke of Bearn, ecu, 1778–cow mintmark (Pau), counterstamped **39 BZ,** etc., excessively rare.
